Dear **CSE** students of 2025 batch,

Please find below a summer (2-months) internship opportunity at Cloudcraftz. Interested students are required to submit their candidature to Student Coordinator, Placement, latest by 10th March, 5pm. Note that based on academic profile, not more than 15 profiles will be forwarded to the company, as per the instructions received.

@Student Coordinator Placement , please collect the students' data as per the attached format and revert back ASAP.

Best Regards,
Pratik Chakraborty

---------- Forwarded message ---------

Hi Dr. Chakraborty,

As discussed over the call, we are reaching out to you with request for profiles for summer internship. When selecting the students for us please note the following criteria -:
Intern profiles for Digital transformation
1) Students with CGPA 8.0 and above. Please send a maximum of 15 to 20 applicants because we will have only a small number of intakes
2) Students with following skillsets - :
  - Mobile and web app development (Flutter/Kotlin/React/Nextjs),
  - Backend Tech (FastAPI/Java/Nodejs),
  - LLM (LangChain/LlamaIndex)
 - Please update the attached tracker and include the resume link of the candidates

Intern profiles for Data Science
We may also need a few applicants for internship in the Data Science area. So, if you have technically very strong candidates for AI/ML projects only then send us those candidates in a separate tab of the attached excel sheet. Send a maximum of 7 to 10 profiles if you have really excellent candidates with CGPA 8.0 and above.

Thanks & Regards
Sonali Sengupta
